

CURRICULUM VITAE 2020

OUR MISSION

Provide high technology products and Integral solutions in the area of material stability testing to national and international companies in Mexico; always based on the knowledge and experience of our human capital, in the innovation of our processes and in the quality of our customer service.

OUR VISION

Be the first option in Mexico developing technological solutions and laboratory tests in material stability. In this way we become a decisive support for our clients in their objective of achieving maximum competitiveness.

OUR ADVANTAGES

Our strength lies in our team of collaborators: in their experience and their extensive knowledge of weathering, color and appearance and protection against corrosion; in the quality of our products and services; in our customer service and in the certifications, collaborations, agreements and memberships with which we have.

OUR EVOLUTION

2008

BEGINNING OF
OPERATIONS

Q-Lab Exclusive Representation
Leader in accelerated
aging instruments.
www.q-lab.com

2009

datacolor

Exclusive Representation of Datacolor
Leader in spectrophotometers, evaluation of color
and appearance. / www.datacolor.com

2010

2011

datacolor

Technical Certifications:
Calibration and maintenance of Q-Lab and
Datacolor instruments.

Committees
D01- Paint and related Coatings, Materials and Applications.
D20- Plastics.
G01- Corrosion and Metals.
G03 - Weathering and Durability.

2012

2013

Obtaining the certification as
inspectors of coatings
CIP Level I

Obtaining RENIECYT as a scientific
and technological company.

2014

2014

Creation of the laboratory in stability of
materials and reference sites for natural
weathering.

Founding partner of the Red de Intemperismo en
Materiales Plásticos.
Project Conacyt / No. 252034

LABORATORIO DE ENSAYO
ACREDITADO MM-0848-132/17

EMA ACCREDITATION

As a test laboratory according to the
requirements established in the standard
ISO / IEC 17025: 2005, for conformity
assessment activities in chemistry and
metal mechanics.

EXCLUSIVE REPRESENTATIVES

2018

EXCLUSIVE REPRESENTANT

Company with extensive experience in multiple sectors: from traditional textiles to intelligent fabrics, non-woven fabrics, rubber, wood and plastic.

For 50 years we have been producing test instruments for all sectors of the textile, paper, leather and plastic industries.

2019

EXCLUSIVE REPRESENTANT

EMA ACCREDITATION

How calibration laboratory according to the requirements in the norm NMX-EC-17025-IMNC 2006 ISO / IEC 17025: 2005, for the evaluation activities of mass, optical, pressure and temperature conformity, with accreditation numbers: M-196, OP-36, P-149, and T-142.

offers the most complete range of quality control instruments for industrial processes and laboratories in various sectors, and is also the only company in its sector with its own manufacturing.

EXCLUSIVE REPRESENTATIVES

COLLABORATIONS

MEMBERS OF THE NATIONAL ASSOCIATION OF CORROSION ENGINEERS.

Committees:

- Coatings and Linings
- Corrosion Control Coordinating
- Coating Inspector Program

REDINMAPLAS

RED DE INTEMPERISMO EN MATERIALES PLÁSTICOS.

Promoters of the strengthening of the Network of Weathering in Plastic Materials.

INTERNATIONAL MEMBERS OF ASTM.

We collaborate in different committees related to material tests, corrosion and accelerated aging.

LABORATORY TECHNOLOGICAL INFRASTRUCTURE

COLOR AND APPEARANCE EQUIPMENT

- Spectrophotometers, Geometry d / 8 °, 45 °
- Multi-angle / Spectrodensitometer
- Ultrasonic Thickness Gauges
- HD Stereoscopy
- Color and appearance testing
- Farnworth-Munsell Hue Test
- Physical tests
- Impact, adhesion, bending, etc.

WEATHERING EQUIPMENT

- Cyclic corrosion chambers
- CRH Corrosion Chamber
- QUV Accelerated Aging Cameras
- Xenon weathering chambers
- Moisture chamber
- Class I weather station
- Outdoor Weathering Rack
