Laboratorio de Ensayos
en Estabilidad de Materiales

James Heal
Extraordinary Testing Solutions

EXCLUSIVE REPRESENTATIVES

OUR MISSION

Provide high-tech products and comprehensive solutions in the area of material stability testing to national and international companies in Mexico, as well as offer calibration services based on international norms and standards to private industry and educational and scientific institutions; always based on the knowledge and experience of our human capital, on the innovation of our processes and on the quality of our customer service.

OUR VISION

To be the first option in Mexico developing technological solutions and laboratory tests on stability of materials, as well as satisfying your calibration needs in the magnitudes we provide. Thus becoming a decisive support for our clients in their goal of achieving maximum competitiveness.

OUR ADVANTAGES

Our strength lies in our team of collaborators: in their experience and their extensive knowledge of weathering, color and appearance and protection against corrosion; in the quality of our products and services; in our customer service and in the certifications, collaborations, agreements and memberships with which we have.

2016

EXTENSION OF LABORATORY OF TESTS IN MONTERREY

NATURAL WEATHERING SITE IN MEXICALI, VERACRUZ, QUERÉTARO AND MONTERREY

Site in Monterrey Accredited in ASTM Standard G7 / G7M-13 Standard Practice for Atmospheric Environmental Exposure Testing of Nonmetallic Materials.

2017

OPENING AND SHOW ROOM OF Q-LAB IN QUERÉTARO

2018

EXCLUSIVE REPRESENTANT

James Heal
Extraordinary Testing Solutions

Company with extensive experience in multiple sectors: from traditional textiles to intelligent fabrics, non-woven fabrics, rubber, wood and plastic.

TEXTTEST
INSTRUMENTS

For 50 years we have been producing test instruments for all sectors of the textile, paper, leather and plastic industries.

EXCLUSIVE REPRESENTANT

LENETA

Leaders in test substrates and pigments.

ema ACCREDITATION

ema LABORATORIO DE ENSAYO
ACREDITADO Q-0852-106/17

ema LABORATORIO DE ENSAYO
ACREDITADO MM-0848-132/17

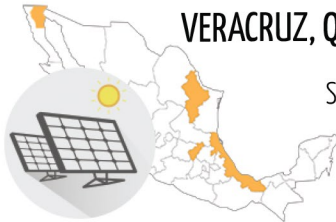

As a test laboratory according to the requirements established in the standard ISO / IEC 17025: 2005, for conformity assessment activities in chemistry and metal mechanics.

EXCLUSIVE REPRESENTATIVES

COLLABORATIONS

MEMBERS OF THE NATIONAL ASSOCIATION OF CORROSION ENGINEERS.

Committees:

- Coatings and Linings
- Corrosion Control Coordinating
- Coating Inspector Program

RED DE INTEMPERISMO EN MATERIALES PLÁSTICOS.

Promoters of the strengthening of the Network of Weathering in Plastic Materials.

INTERNATIONAL MEMBERS OF ASTM.

We collaborate in different committees related to material tests, corrosion and accelerated aging.

LABORATORY TECHNOLOGICAL INFRASTRUCTURE

COLOR, APPEARANCE AND WEATHERING EQUIPMENT

- Spectrophotometers, Geometry d/8°, 45°
- Multi-angle / Spectrodensitometer
- Ultrasonic Thickness Gauges
- HD Stereoscapy
- Color and appearance testing
- Farnworth-Munsell Hue Test
- Physical tests Impact, adhesion, bending, etc.
- Gloss Meter for 20°/60°/85°
- Conical Mandrel
- Roller Mandrel
- Cyclic corrosion chambers
- CRH Corrosion Chamber
- QUV Accelerated Aging Cameras
- Xenon weathering chambers
- MTG Gravelometer
- Moisture chamber
- Class I weather station
- Outdoor Weathering Rack
- Universal Testing Machine 10kN
- Martindale
- CrockMaster
- Atlas HVM Horizontal Flame Test Equipment
- Forced convection oven
